Free Trade and the Repeal of the Corn Laws. Belief in free trade became an enduring characteristic of British liberalism in the 19th century but its roots were complex. In part it stemmed from popular Radical hostility to monopoly in all its forms, in part from the diffusion of Smithian and Ricardian political economy and in part from the administrative pragmatism, reinforced by evangelical religion, of the liberal Tories in the 1820s.

The Case for Free Trade | Hoover Institution

Abstract. The argument about the limits of free trade or protectionism rages throughout the world to this day. Following the repeal of the Corn Laws in 1846, free trade became one of the most distinctive defining features of the British state, and of British economic, social, and political life. While the United States, much of the British Empire, and the leading European Powers turned towards protectionism before 1914, Britain alone held to a policy which had seemingly guaranteed power and ...
