Home Theater Projector Buyers Guide | Projector People

We currently recommend 1080p resolution projectors for home theater, as prices are now low enough that they are affordable to most projector buyers. If you want your projector to double as both a video and data projector, the 1280x800 format should be considered, as well as data projectors using WUXGA (1920x1200) which are beyond the scope of this article.

Guide For Buying Home Theater Projectors | OfficePlus UAE

Contrast ratio is an important factor to consider along with brightness in a projector scenario. In darkened rooms, such as an ideal home theater environment, contrast will be much more noticeable. Business projectors, on the other hand, are often used in well-lit rooms, where contrast is muted because of the additional light.
