Industry experts forecast that California's volume of olive oil will increase by 500 percent in the next five years. The top olive-producing counties in California are Tulare, Tehama and Glenn counties. California farmers grow dozens of different olive types. The five most important California table-olive

Growing Olives - Information

Olive Production Page 2 Figure 3: Top olive-producing counties in California [9]. Most table olives are grown in lower harvested. In the 1980s high-density (HD) systems (~100-340 trees/acre) were developed, which can reach full production somewhat earlier and can be harvested with tree shakers for the first 15 years [5,11]. In the mid-1990s, a
