Reading The Global Troubling Perspectives

The global is an instituted perspective, not just an empirical process. Adopted initially by the British in order to make sense of their polyglot territorial empire, the global perspective served to make heterogeneous spaces and nonwhite subjects "legible," and in effect produced the regions it sought merely to describe. The global was the dominant perspective from which the world was produced ...

Sociologists study social events, interactions, and patterns, and they develop a theory in an attempt to explain why things work as they do. In sociology, a theory is a way to explain different aspects of social interactions and to create a testable proposition, called a hypothesis, about society (Allan 2006).. For example, although suicide is generally considered an individual phenomenon ...
