The best way to prevent suicide is to recognize these warning signs and know how to respond if you spot them. If you believe that a friend or family member is suicidal, you can play a role in suicide prevention by pointing out the alternatives, showing that you care, and getting a doctor or psychologist involved.

Suicide Prevention - HelpGuide.org

Prevention. Suicide prevention methods and treatment are based on patient risk factors. Treatments are prescribed in light of underlying conditions in addition to prevention of suicidal thoughts and acts. If you are suffering from a mental disorder, a treatment plan to treat this condition is implemented first.
