Menu Planning - Spend Smart Eat Smart

Menu planning is the first control point in the food service system. ... The overall effect is to convey simplicity, speed, and a limited selection of products prepared the same way at every unit. On the other hand, an independently owned specialty restaurant catering to wealthy, sophisticated diners would have an altogether different menu ...

Menu Planning - Northern Arizona University

standard portion cost = unit cost/portions in the unit. An example is a carton of eggs. If eggs cost \$2.00 a dozen and a standard portion in a menu breakfast item is two eggs, the standard portion cost can be found. Recall the equation: standard portion cost = unit cost/portions in the unit. Now, find the portions in the unit.
