Comprehensive guide to tuning the Nissan CR14DE engine!

The Nissan CR14DE are good project engines and with a few sensible modifications like a remap, turbo improvements and camshafts you will positively maximise your driving fun. We shall examine CR14DE tuning and highlight the ultimate upgrades.

Comprehensive guide to tuning the Nissan CR14DE engine!

The engine is Nissan's 4 cylinder 16 valve CR14DE unit, running on standard unleaded petrol. It has a timing chain rather than a belt, which can be both a strength and a weakness depending on the care and attention it receives. This same engine is found in the K12 Micra, as are many other parts on the Nissan Cubic and Cube.

Nissan Cubic Review - Andrew's Japanese Cars

It belongs to the VG engine family, displaces 30 deciliters (3.0 liters), and the feature letters describe an engine with dual overhead camshafts, electronic port fuel injection and two turbochargers.

List of Nissan engines - Wikipedia

The first generation of the European version was equipped with inline-4 1.4-liter CR14DE and 1.6-liter HR16DE. For Japanese Note 1.5-liter HR15DE engine was used. For the second generation Nissan Note (EU version) inline-3 1.2-liter HR12DE and HR12DDR were produced, and for US-market it was equipped with HR16.
