Penny stocks, those with a price of less than five dollars per share, are likely to be companies that have fallen on hard times. Investors are signaling, through the price of the shares, that they have doubts the company will survive. If they did not have such doubts, the price of the stock would be higher.

### Step-by-Step Beginner's Guide to Trading Penny Stocks

Sure, that could be stocks trading for fractions of a penny, but even a stock trading for \$4.95 could still be considered a penny stock. Pennystocking as a verb just means trading penny stocks. But that's not to say that pennystocking follows the same trajectory of buying and selling regular stocks of large-cap companies like Google or Amazon.
