This documentation is copyright by SAP AG. Description Tasks of the transport dispatcher program RDDIMPDP Each export from a source system and each import into a target system can be split into different phases or transport steps. Some of these steps are performed by external programs (tp and R3trans) and some by ABAP programs within the system.

Documentation View - consolut

In this tutorial I will show you how to attach documents to an ABAP Program and display them when required. Uses: You can attach the detailed documentation of the program, execution instructions etc., with screen shots. This will help the end user to know more about the program and will not need to look for documentation in a separate repository.

How to attach documents to an ABAP Program
