Timbuktu | Paul Auster | Macmillan

A slender doggy tale from Auster, who lately seems more concerned with providing product (and making movies) than matching the high standards of his earlier literary work (for example, Leviathan, 1992). This newest fiction, written from a dog's point of view, smells suspiciously like a bid for domestic bestsellerdom. The sappy opening flirts with kitsch, but Auster's light, transparent ...

Timbuktu is unlike anything I thought Auster capable of writing. Our narrator and protagonist is Mr. Bones, a through-and-through mutt owned by a delusional and kind-hearted vagabond named Willy. We see life

through Mr. Bones' eyes, and Auster does a magnificent job of breaking we humans down to our most essential characteristics.

Paul Auster | Authors | Macmillan

I should clarify that the three star rating is comparing Timbuktu to other works by Paul Auster. I've often said that mediocre Auster is better than most author's greatest. If I were comparing it across the board, I'd give it a four. I'm sure it would be higher if I were a dog person, but I'm really not. ()
